

Produce fresh
treats right
in front of your
customers

> ARTISANAL GELATO

In addition to creating classic Gelato and Sorbets, ideauno can also mix up delicious made fruit smoothies.

In just a few minutes the gelato is ready to be served to your customers.

> PERFORMANCE

Just 3 steps
to make a real
artisanal gelato

Pour the refrigerated mix into the freezing cylinder

Press the Production button

Once the desired consistency has been reached, extract with a spatula

Independent refrigeration system: each cylinder can prepare your gelato in just a few minutes, directly in front of your customers.

Modular technology that adapts to the design of the room and customer needs.

Freezing cylinder in motion, self-adjusting scraper blade for total cleaning and performance of the cylinder.

CONVENIENCE

The **spatulas** supplied are specially designed to facilitate the extraction and presentation of the product.

Scan the **QR Code** on the front of the machine to access the most up to date equipment information: Instruction Manual, Carpi Care kit & Carpi Clean kit.

Refrigerated spatula holder integrated in the top so the extraction spatulas are always ready.

SAVINGS

Ideauno allows energy savings thanks to high efficiency electric motors and high performance condensers.

> SAFETY

Emergency button to stop the machine.

Display that alerts the user when the cylinder is moving.

> HYGIENE

Washing can be sped up by using the **defrost** function, which heats up the cylinder.

Washing module consisting of a hand sprayer and a liquid aspirator to speed up and facilitate cleaning operations without dismantling the freezing cylinder. For complete cleaning, the cylinder can be completely disassembled.

Ergonomic lid to protect the freezing cylinder.

Carpi Care kit

request them from your dealer to always keep your machine hygienically perfect.
